

Industrie Service

**Annex to the EC type-examination certificate
no. ALBV 007 dated 2014-04-10**

1 Scope of application

1.1 Flow, pressure, viscosity, ambient temperature

Range of flow	[l/min]	150 – 600
Range of pressure	[bar]	10 – 60
Range of viscosity	[cSt]	25 – 400
Range of ambient temperature	[° C]	0 – 65

2 Conditions

The approval drawing no. 950.500.020/0 dated 2014-03-20 with certification stamp of 2014-04-10 as well as the written notes and dimension details have to be observed.

3 Remarks

- 3.1 The EC type-examination covers the housing of the rupture valve and the piston only. The pump connection and the cylinder connection is not included within this EC type-examination.
- 3.2 For identification and information about the principal construction the drawing no. 950.500.020/0 dated 2014-03-20 with certification stamp of 2014-04-10 has to be enclosed to the EC type-examination certificate and its annex.
- 3.3 The EC type-examination certificate may only be used in connection with the pertinent annex and the list of the authorized manufacturers (according to enclosure). This enclosure shall be updated and re-edited following information of the certificate holder.
